JENSY JOSE FIGUEROA DURAN

Full-stack Developer · Frontend Developer · Back End Developer · React · Node · Javascript · .Net · PostgreSQL · MySQL · SQL Sever

Orlando, Florida, Estados Unidos | +13216037311 | jensy1418@gmail.com
LinkedIn - Github - Portfolio

Full-stack Developer with experience in HTML, CSS, JavaScript, TypeScript, React, Redux, Nodejs Express, Sequelize, Software Support, IT, other languages such as .NET C#, Asp.NET, SQL Server, MySQL, PostgresSQL, MongoDB and other knowledge in SAP ABAP, SAP SD (Academy).

PROJECTS

Full Stack Web Developer – Workify Service   jun. 2023 - jun. 2023
Academic experience. Henry Bootcamp

Service application that aims to provide a wide variety of service options, explore each service in detail in terms of other users' ratings, and make contracts easily and quickly. In addition, you have the possibility of publishing your own services, thus creating a dynamic and collaborative community.

Develop the login part, the search, the landing page, the styles and collaborate on the backend part, such as managing the database among others.

Front: HTML, CSS3, React, Redux, Material UI y cloudinary
Back: Node.js, Express.
Data base: PostgreSQL y Sequelize.

Full Stack Web Developer – Video Games App   jun. 2023 - jun. 2023
Academic experience. Henry Bootcamp

Video game application, in which you can explore a visually striking catalog with vibrant and detailed images of each game. Get detailed information about plots and characters, choose from a wide variety of genres, from action to strategy, plus check ratings. You can also give free rein to your imagination and create your own video games, sharing your creations with players around the world.

This time I developed both the frontend and the backend.

Front: HTML, CSS3, React, Redux, Material UI y cloudinary
Back: Node.js, Express.
Data Base: PostgreSQL y Sequelize.
